Schedule Drawn Up For Local Garage Closing Hours

The recently organized Didsbury branch of the Automotive Trades Association has at last completed a four-months' schedule announcing the dates on which one local garage will remain open each Sunday and Wednesday afternoon, and on holidays. This schedule appears elsewhere in this issue, and is posted up in all garages where motorists may look up the schedule and know what garage in Didsbury is open for business.

The nine garages in Didsbury co-operating are Stevens' Service Shop, Star Chief Service, Adhead Garage, Cassidy's Garage, Payne-Freeman Co., Barrett's Garage, Gale's B.A. Service, Rosebud Garage and Farmers' Service and Supply.

The garages will remain open Sundays and holidays for service only and no major work will be done.

Hours of service are: Sundays and Holidays, 10:00 a.m. to 5:00 p.m.; Wednesdays, to 6:00 p.m.

Cards will be placed in all garages showing which place will be open, so that all motorists need only to drive up to a local service station and a card in the window will tell him which place of business is open that Sunday or holiday.

LONG YEARS AGO

August 31, 1904

10 mills is the rate of the school assessment for this year.

Mr. Hembling has erected a building on Berlin street, which he will utilize as a pump factory.

Like a woman, Mowers drag team could not stand having a new dress on without running down the street and showing it off.

The Calgary Albertan has become a full-fledged morning paper.

Mr. L. Shantz has cut his fall wheat.

A late hailstorm swept through the territory west of Didsbury recently and did considerable damage.

The north bound train last Sunday ran into a bunch of cattle near the creamery, killing one of Mr. M. Ryckman's calves.

MONDAY, SEPTEMBER 2 IS LABOR DAY HOLIDAY

Monday, September 2nd is Labor Day and a Dominion holiday, and all places of business in the town will be closed. Housewives are advised to stock up in preparation so as not to be caught without the necessities of life over the week end holiday.

New Ration Books Will Be Distributed September 9 to 16

BAND MEMBERS HONOR LEADER, HANS OLSEN

The Didsbury-Carstairs band held their annual banquet in the Lions club rooms last Thursday evening with a good attendance of band members. After the chicken dinner the President, Delbert Beckner of Carstairs called upon the band leader, Mr. Hans Olsen, to come forward and presented him with a bouquet of flowers and a purse of money in appreciation of his long and faithful work with the band. Taken by surprise, the guest of honor thanked one and all for their co-operation and help.

C.P.R. TRAIN TIME TABLE

Train No.	To Calgary
922	4:51 a.m.
524	11:54 a.m.
526	5:20 p.m.
Train No.	To Edmonton
921	1:10 a.m.
523	10:50 a.m.
925	6:19 p.m.

All the above trains are daily

BOB EUBANK SCORES A 32 ON LOCAL GOLF COURSE

Playing over the Didsbury Golf course on Friday night with J.W. Wordie and Cameron Wordie, Bob Eubank, one of Didsbury's outstanding golfers, scored a 32, two strokes under par, to break the course record.

Bob had three birdies on the first, fourth and fifth holes, and only on the third did he exceed par by one stroke. On all the other holes Bob played par golf.

As a token of his achievement Cameron Wordie presented Bob with a Campbell T-20 golf ball.

HARVESTING HELD UP BY RAIN, BUT GOOD PROSPECTS FOR CROP

Cutting of wheat and coarse grains commenced on many farms last week and considerable grain is now in stock and ready for sale. However, set in Saturday and continued until Tuesday, putting a stop to all harvest operations, although it is expected that most farmers who have grain ready for the binder will be hard at work by this week end at the latest.

The grain east of town is nearly all ready to be cut and many farmers have already completed the initial stage of harvest operations. West of town crops were a little later although it is surprising amount of grain that was cut previous to the rain.

To date no material damage has been reported by drought or hail and the yield as a whole this year will be large. In fact the district will have one of the best crops on record if all goes well.

No frost damage has been reported and with the absence of grasshopper, sawfly and other causes of grain deterioration, farmers are jubilant over crop prospects.

ADVERTISERS, PLEASE GET YOUR COPY IN EARLY

Again we remind our advertisers to have their copy at the Pioneer Office not later than Tuesday noon. If copy is late it holds up publication and we are forced to work overtime in order to get the paper out on time Wednesday.

The primary purpose of getting The Pioneer in the mails Wednesday is to have the paper reach all local subscribers not later than Friday of the week of publication, thus giving our advertisers complete coverage of the district by the week end.

Mr. Hans Olsen left last week to spend the next three months visiting at Sicamous, B.C.

Arrangements are being completed for distribution of Ration Book No. 6, to take place during the week of Sept. 9 to 16. Volunteer workers of local ration boards will again have charge. Cards that are not picked up during distribution week will be held until Sept. 29. Following instructions have been summarized so that there will be no unnecessary delay in handling this national wide job.

Print in ink the details required on the green RB-191 card in the back of the present ration book, writing in the signature at the bottom.

Present the book, with the card still in it, to the nearest distribution centre at any time during the dates announced for distribution, and a new book will be received. Do not tear out the green card.

Cards of children under 16 must be signed by a guardian or parent. One member of the family may collect the books of the entire family, provided each bookholder has filled in his or her own card at home.

One member of a community may collect the books for others in that community, provided the cards have been filled out by the individual bookholders.

FOR WESTERN SERVICE

Snorting with power on their first run after leaving the boiler's stalls, these five new C. P. R. Pacific-type engines are the first of 20 which will see service soon in Western Canada.

DIDSBURY ALL STARS TO PLAY AT PONOKA

Baseball games of interest to fans along the line will be played at Ponoka on September 1st when Sedgewick (the biggest little town in Canada) All Stars will play a double header with Didsbury (Alberta's 1946 Jubilee Town) All Stars. The first game will be played at 1:00 p.m. and the second is scheduled for 4:30 p.m.

It is expected that a large number of Didsbury fans will travel to Ponoka for the game.

SUTHERLAND-SPENCER

The home of Mr. and Mrs. E. Spencer was the scene of a quiet wedding on August 21st when their youngest daughter Gerie became the bride of Mr. Robin Sutherland, eldest son of Mr. and Mrs. David Sutherland of Westward Ho and Innisfail. Rev. D. Whyte Smith performed the ceremony.

The bride looked lovely in a floor length gown of white net. Her long veil was held in place by a coronet of orange blossoms and she carried a bouquet of scarlet and white carnations. Miss Fiona Sutherland, sister of the groom, was bridesmaid. The groom was attended by Mr. Clarence Ness of Eagle Hill. Mr. and Mrs. Sutherland will reside on their farm in the Elkton district.

NEW CROP WHEAT GOES TO RELIANCE ELEVATOR

The honor for delivering the first 1946 wheat to a Didsbury elevator goes jointly to Floyd Ahlgren and Ahlgren Bros., who both delivered loads of winter wheat to the Reliance elevator on Monday of this week. The agent Les Le Grange reports that the wheat was a fine sample and graded No. 2, weighing 63 pounds to the bushel.

LADIES' AUXILIARY DANCE MONDAY, SEPTEMBER 2

Posters are out announcing the dance to be held in the Didsbury Opera Theatre on Monday evening, September 2nd, under the auspices of the Ladies' Auxiliary to the Canadian Legion. The Innisfail Red Aces will furnish the music and a good time is assured to all who attend the dance.

REGISTRATION CARDS ARE NOT REQUIRED ANY MORE

On Wednesday of last week it was announced in the House of Commons at Ottawa that National Registration would be discontinued as from Thursday, August 15th.

With the assistance of an army of volunteer registrars, forms were completed by 7,362,920 persons, of whom 3,979,680 were males and 3,383,240 females. The same Order-in-Council, revokes the National Selective Service Mobilization Regulations, 1944, as from August 15th. Earlier this year the thirteen Mobilization Boards had been dissolved, and the thirteen Registrars' offices across Canada had been closed out. The Order-in-Council provides that further action will not be instituted in the courts against any offenders under the Mobilization Regulations who will court proceedings now pending be proceeded with.

Western Canada. Their work is cut out for them helping move a record tourist traffic and easing the strain on the present fleet which got little rest during the war years. Forty of the new iron horses were ordered this year, half of them for Eastern

First Golf Tournament of Season Now Completed

GETS NEW MACHINE FOR PICKING POULTRY

Last week Fred Platz received his new poultry picking machine from Kansas City and he now has the new picker in operation. The machine is one of the latest models and Fred is quite pleased with it. He says it really works and he can pick about 100 birds an hour now.

WESTCOTT SCRIBE REPORTS HAIL SOUTH WEST OF CARSTAIRS

We are pleased to hear that Donald, eldest son of Mr. and Mrs. Otto Folkman, who has been very ill with pneumonia at his home, is making a satisfactory recovery and we all hope it won't be too long Donald, before you'll be up and about again.

The Westcott folks gathered together at the Dog Pound on Friday evening last for a wienner roast with the lighting of the fire, all the insects in the country seemed to be attracted to that spot and made quite miserable for all. The crowd broke up early but not before every wienner had been devoured.

Miss Joyce Buhr of Didsbury spent a couple of days of last week with Deloyce Goelien at Westcott. Quite a number from this town took in the wedding dance on Wednesday night at the Rugby Hall and all reported having a good time.

It seems to have got the raining notion again and on Tuesday night a little hail fell in this vicinity too, but not enough to do any material damage. Farther south a lot of fine crops show the ravages of a terrific hailstorm which struck the same night.

Mrs. John Stevenson and children are visiting at the home of her parents, Mr. and Mrs. H. Papke at Elkton.

Clifford Berscht, Alex Ireland, Cecil and Kenneth Papke of Elkton were Sunday visitors at the H. Goelien home.

Law's Drug Store has on display a number of photographs taken of the big parade on Jubilee day. Jack Law was the photographer and the 19 pictures pretty well cover the parade entries. Those wishing to have copies of these snaps can order them from the Drug store.

DUCKS DESTROYING CROPS MAY NOW BE KILLED

Following numerous complaints by farmers in Southern Alberta of damage being caused by wild ducks to this year's crops, a permit has been issued by the Department of Lands and Mines authorizing owners or occupants of land who have cereal crops growing or it stood to shoot ducks which are found to be causing serious injury to such crops. The permit is effective between Aug. 1 and Sept. 14. Permission can also be obtained to grant authority to other persons to aid in the shooting by notifying the same branch of the department at Edmonton, a report issued by the department states.

Canada. The main engine frames, upon which the boilers are bolted and to which the wheels and other running gears are attached, are flame-cut from rolled steel slabs, a war-improved technique, used extensively in tank construction.

While many obstacles have been encountered by the Didsbury Golf Club this summer the members finally settled down to their first tournament of the season, with 16 golfers taking part. Bob Eubank with his par-breaking 32, won out and as a result is the holder of the Wildfire Cup, put up for annual competition.

Following are the scores turned in for the two rounds played last week, together with the net scores derived after deducting the handicaps.

	Qualify	Final Net
Bob Eubank	43	32
J.W. Wordie	42	44
Dr. Paul	52	44
Dr. Summers	45	42
H.D. Halliday	53	48
L. Berscht	52	47
C.W. Johnson	50	50
W. Skerry	44	47
W. Evans	39	41
C. Scott	52	44
J. Kirby	45	45
C.E. Reiber	42	42
W. Ross	47	49
S. Kreuger	48	46
E. Watkin	52	51
Art Reiber	51	51

Those who were not able to compete in last week's tournament have been drawn for the tournament to be played this week for the Silver Trophy, and following is the draw, with players lined up in foursomes as far as possible:

Wordie (6), Evans (4), Eubank, Armstrong (2); Lynch-Staunton (10), Ranton (6), Branton (11), Law (8); Le Grande (8), Skerry (8), Johnson (10); Klein (11), Prevost (3); Dr. Paul (7), Dr. Summers (4), Kreuger (8), Ross (10); Koutman (4), Halliday (9), Berscht (8), Art Reiber (10), Watkin (11); C.E. Reiber (5), McFarquhar (8), Scott (7), Kirby (6).

Flowers after each name indicate the handicaps set by the draw committee for this week's tournament.

Games must be completed before Sunday evening, September 1st, and cards should be handed in to J.W. Wordie or left at C.E. Reiber's office.

BRITAIN NOW IMPORTING GOOD HOLSTEIN CATTLE

Apparently the part that Canada has played in supplying dairy products to the world during the war years has not gone unnoticed. In order to introduce new blood into the herds of its members, the British Friesian Cattle Society, of London, has just completed purchase of 220 head of outstanding Canadian Holsteins at a cost of over half a million dollars.

Average price paid at the farms was the record breaking figure of \$207, which with handling and transportation costs is increased to approximately \$230, delivered in Great Britain. The cattle were selected in Ontario, Quebec, Manitoba and Alberta, and will go to the breeders in all parts of Great Britain.

This is the highest average price or total ever paid for any single shipment of Holsteins ever exported from Canada, and the animals qualifying for it met the highest standards ever established for a large scale importation.

LOCAL AND DISTRICT SCHOOLS TO RE-OPEN TUES., SEPTEMBER 3

After a two months' holiday Didsbury and district schools re-open for the fall term on Tuesday, September 3rd and some students are anxiously awaiting the day, while others are not so enthusiastic. However, most parents will be glad to see the last of the holidays and their children safely back to school again.

There are several changes in the staff of the Didsbury school this year and following is a list of the local teachers:

High School: Mr. Eder T. Wiggins, Principal; Mr. Wayne F. Stauffer, B. Sec. Miss E. A. Wilson, H.A. Mr. Christopher Flanagan, Shop; Miss Brownell, Home Economics. The latter two will teach half the week in Didsbury and the other half in Olds.

Junior High School: Miss Alice Weiss, Grade IX; Mr. Herbert E. Stiles, Grades VII and VIII. Intermediate and Primary: Miss Allison Earle, Grades V and VI; Miss Ann Proden, Grades IV and V; Miss Claire Wood, Grade II and III; Miss Clara M. Wilson, Grade I.

Syd Gilson, secretary-treasurer of the Olds School Division reports that there is still a shortage of teachers and unless applications are received immediately at least 25 schools in the Division will not open on September 3rd due to the fact that there will not be a teacher to take charge.

LOCAL CONVENORS OF REHABILITATION COMMITTEES MEET

Convenors of Committees of the Didsbury Citizens' Rehabilitation Committee met last week to discuss problems of local veterans and those present were: W.A. Austin, chairman; Mrs. C.S. Mortimer, secretary; Ed Ford, chairman of the Job Survey committee; C.E. Reiber, chairman of the Land Survey committee; and Miss Margaret Hanson, chairman of the Welcome Home committee.

While the Rehabilitation Committee has not been very active this summer, it was decided that their work was not completed, and the various committees will therefore carry on until such time as all local returned men and women have been re-established in civilian life.

C.E. Reiber reported that there was a large number of applications for land under the Veteran's Land Act, but farms in this district were not available at the present time.

Ed Ford reported that many veterans had obtained jobs in town but it was his intention to call a meeting of veterans to discuss any problems they may have encountered.

Miss Margaret Hanson of the Welcome Home Committee will call a meeting of war brides in Didsbury to discuss their problems and give them instruction where requested on social, home economics and health matters.

STABLING COWS ABOARD AIRPLANE

In a recent shipment of a herd of 10 Guernsey cows from the Patterson, N.J., airport to Bogota, South America, the internal arrangements in a converted army plane called for some ingenuity. The cows were stabled aboard the plane in specially prepared canvas lined stalls with shavings for bedding. They were tied head forward to the plane, in rows of three or four according to the width of the plane. The total shipment weighed 5,500 lbs., the maximum cargo for that type of plane. The shipment inaugurated what is to be a new service for shipping cattle herds to South America.

WORLD HAPPENINGS BRIEFLY TOLD

Airplanes will be used to take 2,500 homing pigeons from Britain to Bordeaux for the first cross-channel pigeon race since 1918.

Women clearing out an ornamental pond at Watford, Eng., found a live hand grenade, a Bren-gun machine, bullets, and money.

The last working windmill in Kent, England, known as "The Little Widow of Dover," which has operated for 50 years is to be destroyed.

At the time of his death, Booth Tarkington had a new novel two-thirds completed. His widow is undecided about disposition of the manuscript.

W. A. Dickenson of Leicester, England, has invented a process of making fire-proof bricks from a fine ash waste product from electricity power stations.

John L. Baird, 58, known in England as the "father of television," died in his sleep from what his physician called a complete physical breakdown following influenza.

DERBY, England.—The long-established custom of distributing free leaves at Derby Cathedral on Sundays has been discontinued owing to the bread shortage.

A new company, Remind Me, Ltd., is all set to remind forgetful Britons of the things they ought to remember. It was founded by a man who forgot his wife's birthday.

Seventy-five per cent. of the readers of the Berlin Nacht Express would emigrate from Germany if given the chance, a referendum conducted by the paper among its readers indicated.

Effective Control

Says International Control of Atom Bombs Is Necessary

All of the major and most of the smaller nations of the world will have 500 atom bombs each—enough to blow up every city in the United States of over 50,000 population—within seven years unless an effective international control of atomic energy is set up soon.

"Effective control" means an international authority with "absolute power" within its own limits over every national government in the world.

These were the messages of Dr. Harrison Brown, University of Chicago, chemistry professor and assistant chemistry director of the Oak Ridge, Tenn., atom bomb project, who addressed a Rotary club luncheon in Minneapolis recently.

While the United States still knows more about atom bomb manufacturing than anyone else, "we know that all the other major nations are going full blast" for their atomic work, Dr. Brown said.

"Any nation has enough uranium to make enough bombs to blow up the United States if they dig deep enough. They know that it can be done and they know what material to use, so they can cut the expense of developing it to about one hundredth of what it cost us."

Unless a potent international control authority is set up and operating within a year and one-half, its establishment will be next to impossible, Dr. Brown predicted, because by then many nations will be making bombs.

Naturalist Dead

Man Who Claims Discovery of Sea Lion Wants Credit

LONDON.—The man who claimed to have discovered that a sea lion could balance a ball on its nose wants credit on his tombstone, his will revealed.

The naturalist, who died in December, asked that his epitaph be "Joseph Woodward, F.Z.S., naturalist, discoverer of latent equilibrium powers given to sea lion species."

The will left \$12,000 to three hospitals to endow beds for circus and variety performers and \$1,000 to the Salvation Army to give them Bibles.

A Long Time Ago

Life Was Simpler And Happier For It

Funeral home, mentioned in previous issue, says that a dead man is a primal memory, rather than any sort of forgotten teaching of child hood. It can recall a different sort of life. It was a simple life, untroubled by international problems, racial strikes, business taxes. No one talked in those days of men having powers they could not control. Mere things were a great deal less important. It must have been a long time ago. Toronto Globe and Mail.

NOT WORTH WHILE

The letter had sounded for dinner. The foreman noticed how quickly one of the men, a notoriously lazy fellow, put down his pick.

"I believe," he said sarcastically, "that if the foreman sounded when you had your pick in the air you would hear it there."

"If it got as near to the line as that," replied the man, "I wouldn't trouble to lift it up."

DUAL-CONTROL INSTRUCTION CAR—A car with dual control is the idea of Robert McKinley, right, of Vancouver, to teach prospective drivers. The student can operate brake, clutch, accelerator and steering simultaneously, but the instructor has over-riding controls.

Funny and Otherwise

Just Nowhere

The circus and fun fair was visiting a small American town, and one old man had taken a fancy to the roundabouts.

Round and round he went never seeming to tire, until all his money was gone. They only did he dismount to rejoin his wife, who had been watching him with impatient eyes.

"Well, John," she said, "you sure have spent your money and had a good ride. But where you been, where you been?"

Request Granted

The manager of a toy company wired to the proprietor of a theatre in a small town where his company was to appear: "Want to hold rehearsal at your theatre tomorrow afternoon, three o'clock. Have stage manager, stage carpenter, property man, chief electrician and all stage hands present promptly at that hour."

Shortly after he received the following reply: "All right. He will be there."

His View

Two farmers of the old school stood at the corner of a street in a large town the other day when a lady passed by dressed in the height of fashion.

"There, John," said one, "what's that of that hat, eh?"

John eyed her for a full minute, and then said: "Ay, Will, it's bad ground that takes so much depressing."

Sound Better

A voluble but useless counsel was addressing the jury in a "runaway" case. "Gentlemen," he said, "this accident to my client's little horse will run 'em!" The plaintiff's attorney is in a little "case."

The judge, upon whose sensitive ear these constant and unspirited allusions had grated, could restrain himself no longer.

"Don't you think, Mr. Blank," he interjected, "that at this stage of the case we might refer to it as a pony?"

Who's Guilty?

The vicar was addressing a mother's meeting.

"It has come to my knowledge," he said, "that a woman who is sitting among you today is not carrying out her duties as a wife should do. Instead of preparing a meal for her husband on his return from a hard day's work, she spends her time gossiping. The consequences are that her husband spends most of his evenings in the local bar. Sooner or later this will lead to domestic strife. So that you will know to whom I refer, they all ducked."

Not Him

The office boy was asked to ring up a number and get the wrong one.

"Mr. Wolff," came the reply.

"Who?" replied the boy.

"Wolff," replied the wrong number.

"Well, who's afraid of you?"

What's The Use

Mrs. Brown was anxious to let her neighbor know about her new car.

"I'm thoroughly tired out," she said. "I've been at the wheel all day."

"I can sympathize with you," replied her neighbor. "I've been doing my mangle, too."

Would Be Help

Investor Working On Gadget To Limit After-Dinner Speeches

A Chicago inventor with an eye to giving his aid and comfort to suffering humanity has come up with a machine that regulates the length of addresses by after-dinner speakers.

This is a great step forward. It is to be fondly hoped that the gadget not only is foolproof, but that the inventor sets to work immediately on the mechanical additions or adjustments necessary to improve the quality of speeches. Most habitual listeners, however, would settle for an attachment to tune out at any time.

New York World-Telegram.

FARMER SEEKS STRAY COW, DISCOVERS FAWN—A two-day fast was followed by this fawn after it was discovered by Harry Baker, Orangeville, Ont., farmer, while he was looking for a stray cow. Now accustomed to its new surroundings, "Bambi," as he has been christened, welcomes food from Mrs. Baker.

A VALUABLE GIFT

The American Red Cross recently presented its Norwegian sister organization with a most valuable gift. Fixtures sufficient to equip the new hospital for feeble minded children soon to be erected in Oslo will be shipped from the United States in the near future. The gift includes linen, sterilizers, complete equipment, surgical instruments, washing machines, and a complete set of the most modern kitchen machines and equipment.

PRODUCED LICENSE

Joseph Zamoski, of Baltimore, says he was driving his car—and fast—when a Virginia state trooper waved him down and said sarcastically: "Let me see your pilot's license." Zamoski, a pilot, pulled out his airplane papers. The officer laughed, and let him go with a warning to slow down on the ground.

The air at high levels is cold because it doesn't absorb much heat and doesn't easily retain it.

REG'LAR FELLERS—On Heavy Duty

INTERESTING STORY—

"YOU KNOW WHEN IT HAPPENS"

By MATTHEW F. CHRISTOPHER

Wheeler Newspaper Syndicate (Copyright)

HE WAS a farm kid, and like some farm kids he had a slight stoop to his shoulders. His face was nearly raw from sunburn; but his blue eyes had a vivid sparkle she liked. And his reddish hair had a crispness to it like toast.

They stood together on the cinder driveway, with the moon hanging like a pumpkin up there in the sky. Light beamed from the windows of the garage where George and Carl were tinkering on a motorcycle.

"You know something," she said, "I don't feel like grabbing you up in my arms, holding you tight and kissing you like a guy never kissed a girl before? How do you know?"

"Look," she continued, "I never felt good until I met you. Get that through your head. You were all I needed to set me right. I know it as sure as I am born. Now, do you believe me?"

He grinned. He lowered his head so that his lips met hers. There was slight pressure behind them, and something electrical that tingled her finger tips. But it was brief—and he hadn't put his arms around her.

"You're sweet," he said. "I like you." "That's because you don't know any other girl, if what you told me last night is true."

"It is," he answered. "What's more, I never kissed any other girl but you. How could I? Living alone with my father and mother, with no brothers or sisters, and working almost every minute of every day since I was old enough to carry a hoe."

She stared. "You never went to school?" His eyes laughed. "Since when isn't that work?"

"You," she exclaimed, and grabbed his hand. "Come on. I'll introduce you to my brothers—then we'll start for the movie."

She walked in, pulling him. Her brothers were coveralls smattered with grease.

"Hello, boys!" Edith said. "George—Carl. I want you to meet Jerry, Jerry Worden."

The boys lifted dirty hands. Jerry laughed. "I wouldn't mind, but maybe your sister would. I'd be glad to meet her."

On their way to the theatre he said, "They act like new guys."

She was always tinkering—far into the night, usually. Between her brows were the thin webs of a frown. But what are we doing talking about them?" He looked at her. "What shall we talk about?"

She met his eyes, and saw how the moon tinted them a soft yellow. She pressed his arm closer to her, and was conscious of a deep pounding in her breast. She wondered if she were really falling for him.

"Let's talk about you," she said. "I know, you told me you were lonely. You said you didn't have any friends. You said maybe a girl is what you wanted, to sort of adjust

you to the kind of living you think you need."

"Well, that's true. Anyway I guess it's true." A frown crossed his forehead. "Why bring that up now?"

Her heart was a painful beat. But she couldn't tell for sure. Love was intangible. You either had it or you didn't.

"You're not happy now," she said. "I guess I just don't appeal to you."

"You're talking crazy. How do you know how I feel toward you? How do you know that right this minute I don't feel like grabbing you up in my arms, holding you tight and kissing you like a guy never kissed a girl before? How do you know?"

"Look," she continued, "I never felt good until I met you. Get that through your head. You were all I needed to set me right. I know it as sure as I am born. Now, do you believe me?"

"I believe you," she whispered. A tear dropped upon her cheek.

THEY left the movie, had a milkshake, and he walked her home. If they could always be together like this, she thought. It would be wonderful.

He kissed her at the door, a long, cherishing kiss—the kind she had wanted before. The kind she was hoping he'd give her. She went into the house smiling, and her fingertips were tingling stronger than ever now with that electrical feeling.

TWENTY minutes later the kitchen door opened and George came in. He was grinning triumphantly. He and Carl must have got the motorcycle fixed. She thought, and she smiled. "Those kids!"

"Hey, sis!" George said. "Get me some lemonade, will you? For three?"

She stared at him. "Three?" "That's what I said," George said. "Boy, is he a mechanic, Jerry. Boy, is he a mechanic, Jerry."

Trance-like she poured out the lemonade, and handed it to George, who took it out on the tray.

She was used to it, now. Jerry didn't come back to repair the motorcycle. The motorcycle was the path he took to return to her.

A soft smile played across her lips. She was always tinkering—far into the night, usually. Between her brows were the thin webs of a frown. But what are we doing talking about them?" He looked at her. "What shall we talk about?"

She met his eyes, and saw how the moon tinted them a soft yellow. She pressed his arm closer to her, and was conscious of a deep pounding in her breast. She wondered if she were really falling for him.

"Let's talk about you," she said. "I know, you told me you were lonely. You said you didn't have any friends. You said maybe a girl is what you wanted, to sort of adjust

you to the kind of living you think you need."

"Well, that's true. Anyway I guess it's true." A frown crossed his forehead. "Why bring that up now?"

Her heart was a painful beat. But she couldn't tell for sure. Love was intangible. You either had it or you didn't.

"You're not happy now," she said. "I guess I just don't appeal to you."

"You're talking crazy. How do you know how I feel toward you? How do you know that right this minute I don't feel like grabbing you up in my arms, holding you tight and kissing you like a guy never kissed a girl before? How do you know?"

"Look," she continued, "I never felt good until I met you. Get that through your head. You were all I needed to set me right. I know it as sure as I am born. Now, do you believe me?"

"I believe you," she whispered. A tear dropped upon her cheek.

THEY left the movie, had a milkshake, and he walked her home. If they could always be together like this, she thought. It would be wonderful.

He kissed her at the door, a long, cherishing kiss—the kind she had wanted before. The kind she was hoping he'd give her. She went into the house smiling, and her fingertips were tingling stronger than ever now with that electrical feeling.

TWENTY minutes later the kitchen door opened and George came in. He was grinning triumphantly. He and Carl must have got the motorcycle fixed. She thought, and she smiled. "Those kids!"

"Hey, sis!" George said. "Get me some lemonade, will you? For three?"

She stared at him. "Three?" "That's what I said," George said. "Boy, is he a mechanic, Jerry. Boy, is he a mechanic, Jerry."

Trance-like she poured out the lemonade, and handed it to George, who took it out on the tray.

She was used to it, now. Jerry didn't come back to repair the motorcycle. The motorcycle was the path he took to return to her.

A soft smile played across her lips. She was always tinkering—far into the night, usually. Between her brows were the thin webs of a frown. But what are we doing talking about them?" He looked at her. "What shall we talk about?"

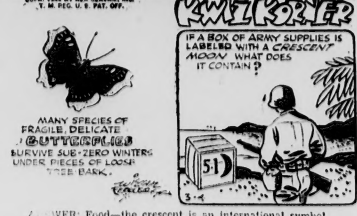

She met his eyes, and saw how the moon tinted them a soft yellow. She pressed his arm closer to her, and was conscious of a deep pounding in her breast. She wondered if she were really falling for him.

"Let's talk about you," she said. "I know, you told me you were lonely. You said you didn't have any friends. You said maybe a girl is what you wanted, to sort of adjust

you to the kind of living you think you need."

OUR COMPLETE SHORT STORY—

FATHERLY PERCEPTION

By MARGARET ELSON

Copyright
Wheeler Newspaper Syndicate

WE HAD BEEN married about ten months when I said to Marie: "Darling, just how much do you think we could scrape up to buy a car—just a cheap one, any kind just as long as it goes?"

Marie was washing the supper dishes at the time, and me well I was drying them for her, and I'm not hep-cked either! I'm only too pleased to think that I have such a fine girl as Marie for my wife. Gee, but I love her. And here we are, working on a fruit farm, 50 miles away from our nearest relative, and six miles from the nearest town. Once a week we managed to get into town with Mr. Kayes (my boss). But when a man expects to become a father in two months' time he wants to make certain he has a definite way of getting to the hospital ahead of the stock.

Whereas I thought of the stock, it sent the chills up and down my spine, and I envisioned it speeding through the stratosphere—or wherever sportsmen try to speed—and Marie, breathlessly trying to obtain transportation for myself and Marie. It wasn't a nice vision. In fact, it gave me "stark fever," and now as we're doing the dishes "the lady, feathered flying animal" loomed closer than ever, and that was the reason why I had asked Marie about a car.

Marie sighed a little. "Yes, things sometimes happen before schedule. I think we could manage a cheap car, say around \$200.00."

I finished drying the Blue Willow cup—and also finished the cups usefully. Whenever I'm drying dishes, the towel seems to have a habit of getting mixed up in the handles of the cups, and when I go to set them down and pull the towel away, it doesn't come clear that's the second cup I've broke in the last three days. It really gets a man down when he's expecting the stock.

There had been an ad running in the paper along these lines: "For sale, Model A, good running order, five good tires, motor recently overhauled. Selling price, Phone 264." Marie agreed it might do.

I threw the paper aside and went over to the telephone to ring the number, while Marie stood biting her nails. A squeaky little voice answered.

"Yup, this here's the place, Mister—our ain't said as yet, she ain't, but she's likely right smart good to be. You don't see bargains a-carburate under your nose like this every day? No sir, she won't be settin' here long, no she won't, so you want to grab her quick!"

The man breathed and I had time to say, "How much?"

"Two and a half as she stands—right ready to exorcise down the home stretch—yes sir," he said.

I felt the commensurate extra \$50 as I went through the ceiling, but I thought I might be able to bring him down a key. I reached for my hat and coat and made a dash to catch Mr. Kayes, on his way into town to lodge meeting. I yelled to Marie, that I wouldn't be long, and to keep her fingers crossed. She looked so lovely, standing in the doorway, hugging the Persian cat, which we had called Donald, but which had to be changed to Lancelotti. (I never was much of a farmer).

It happened that the owner of the car was a very old gentleman who thought that his rheumatism wouldn't let his leg move fast enough to "break" her when she needed it. He was slightly stubborn over the \$50, but I won out. In half an hour I was riding down the front street, proud as any expectant father. I felt I had obeyed my "promission" to get a conveyance, and my heart sang. So excited was I that I pulled her over to the curb and went to the corner drug store to "phone Marie."

"Darling," I said, "we are the owner of a \$200 automobile—and it runs!" She sounded excited. "What's the matter—your all right, are you?" I asked breathlessly.

"Oh, yes, dear," she said, "but hurry home—it's happened!"

My heart ceased to beat, and the booth went all black for just a moment, but, pulling myself together, as an expectant father should, I told her to get right into bed, would be home immediately. It had happened—and her all alone, and—

at the telephone! Why it was impossible. But she said it had happened. Oh, the poor darling.

I jumped into the car, and raced around to Dr. Gillett's. He was just changing a tire in his garage, streaked across the lawn and pulled him toward my humble car, explaining what had happened. "I'll take you out, doctor—I'll take you out—never mind your flat tire—I'll run you out to Marie right away!"

"But—but, my dear man," he said, "let me at least get my bag."

He rushed to the house, coming out again in two seconds flat. Jump-

DEFACING BOOKS

Is Strictly Against Library Rules But People Do It

Books owned by oneself may be marked just as much as the owner likes; but it is an impertinence to make notes on books owned by the public and looted from the public library.

Every so often one gets a book profusely marked with underlinings, and there is someone who seems to take a delight in recording his opposition to the teaching given in some books. That the notes are futile and often foolish is beside the mark; it should not be done.

Everyone who borrows books from the library has a right to get them fresh and unmarked by foolish marginal notes, or underlinings. Apart from other things, the ethical side of the case, it is against the rules of the library to deface books.

—Gulph Mercury.

Beyond The Horizon

There is Always The Unfolding of New Lands

Wherever one may be, there is always a horizon, the boundary of the world one sees, the line where earth and sky would seem to meet.

A city presents a disorderly skyline—skyscrapers, apartment houses, and other buildings crowded pell-mell—but nature's myriad skylines are peace and majesty, whether it be rolling hills, blue line of sea, feathered edge of forest or towering mountains.

As the wanderer moves, his skyline moves, and as certainly as there is always a horizon, there is always a beyond. The unknown lying beyond the horizon has tempted the seer since the beginning of history.

It has lured me into rough seas and black wildernesses.

In his long journeying no traveler ever reached the horizon. It lay forever beyond his grasp, a tantalizing line on the rim of the sky, extending mute challenge.

There is, one might think, a hint of the eternal in the horizon and a hint of infinity in the beyond of the promise of the skyline is not barren. Always there is the fulfillment—the slow unfolding of new lands. —Merrill Gosselin.

A smart man is one who possesses enough judgment to use his own.

SMILE AWHILE

"Yes, my wife gets more out of a novel than anybody."

"How's that?"

"Well, she always starts in the middle, so she's not only wondering how it will all end, but how it began."

"Your wife is a very sympathetic woman, isn't she?" asked Robinson.

"Yes, very," replied Smith, "she works on the theory that you can find whatever you want when you don't want it by looking where it wouldn't be if you did want it."

"Two actors, both jealous of each other, met in the Strand."

"Which?" asked Robinson. "How are you getting along?"

"Not so badly," said the other, "keeping alive."

The first man eyed his rival for a moment, then asked casually, "What's your motive?"

The two survivors of a shipwreck, a seaman and a stockbroker, had clambered on to a raft.

"If a ship doesn't sight in soon," said the seaman, "we'll starve."

"Don't talk nonsense," snapped the stockbroker. "I've got plenty of money."

An Aberdeen, living alone, had an early morning train to catch. Being a heavy sleeper, he was afraid he would not wake up in time. Several possibilities presented themselves, but every one meant a tip.

In the end, he addressed an envelope to himself and posted it without a stamp.

Early next morning there came a thunderous knock on the door. The Scot climbed out of bed and opened the window.

"Here's a letter for you," called the postman. "Fivepence to pay."

"Take it back," commanded the Aberdeen. "Carelessness like that doesn't deserve to be encouraged."

An Irishman wanted to take his donkey by train, so when he got to the station he asked where he should put it.

"At the back of the train," the stationmaster told him.

The Irishman then got into his carriage and after about an hour's traveling he asked a fellow-passenger: "And how fast might we be going now?"

"About sixty miles an hour," he was told.

"Bogorra!" he exclaimed. "My Neddy must be stepping out!"

NEW CZECH PREMIER—Communist Klement Gottwald became the new premier of Czechoslovakia after his cabinet was approved by President Eduard Benes.

Under Some Conditions

Over-Exertion Even In Simple Games Can Be Dangerous

The Wichita Falls, Texas, man who put so much energy into a demonstration of his favorite golf swing that he broke both legs in the effort, really gave a demonstration of how dangerous over-exertion can be. Professional athletes talk now how easy it is to injure or break an arm or a leg by a sudden twist of these members. Golf is not regarded as the most strenuous of games, but the above circumstance indicates it can become so under certain conditions. All athletes have to do to find out how easy it is to get "out of condition" is to resume some work or game that has not been participated in for some time. The sensible thing to do is avoid exerting oneself to the limit, keep in mind one's age and physical condition.

Peaches were introduced into England from Persia in 1662.

Soothe your irritated eyes with Murine

Put 2 Drops in each eye!

Are your eyes sensitive to strong light? Then cleanse and refresh them with Murine. And so, Murine when eyes are irritated by sun glare, dust, driving, reading, hay fever or factory fumes. There are seven important ingredients in Murine. Two drops in each eye soothes and soothes very quickly. Ask your druggist for Murine.

THE GARDEN SPOT OF ALBERTA

The Brooks district with its irrigation, has often been called "The Garden Spot of Alberta" and last week the Olds Gazette laid claim to a similar title for the Olds district.

However, both districts may have the advantages over other areas of the Province, but neither can compare to the Didsbury district when it comes to real honest to goodness facts.

The Brooks area can produce good crops with fair amount of rain and irrigation. Without the rain irrigation alone cannot produce a bumper crop. Olds district usually has plenty of rain and sunshine and would be more favored than the southern part of the Province, but the district lacks the fine dairying herds.

In Didsbury district we have the rain and sunshine, we have the grain and grass crops, we have fine dairying and beef herds, and when winter sets in we have the warm "back winds" that often pester out before they reach our northern neighbor.

Truly then, the Didsbury district could rightfully claim to be a more favored part of the province.

But, after all, its where a person gets ahead that he is most satisfied, and while we have many advantages over other districts of Alberta, there is no real "garden spot" or Utopia.

However, taking everything into consideration, it is generally admitted that the area between Calgary and Red Deer both east and west of the C & E line, is the best part of the province for farming and revenue-producing crops. Didsbury is in the centre of this rich area and if you want to be a farmer you could not pick a better district to fulfill your heart's desire.

NOTES FROM THE WEST

Mr. Tom Dobson is a patient in the Belcher hospital in Calgary as is also Miss Isabel Lowrie who underwent an operation for appendicitis this past week.

Mr. and Mrs. Colin Hogg arrived home on Saturday. Mrs. Hogg recently arrived in Canada on the Aquitania.

The brush country west was combed on Thursday for a lost baby girl and again on Sunday evening in the Inverness district for an old lady. Both were found, none the worse from the experience.

A large crowd attended the dance in honor of Mr. and Mrs. R. Sutherland held in the Rugby Hall on Wednesday of last week.

Only a few ladies took advantage of the sewing course conducted for three days last week by Miss Anderson of Red Deer, but those who did felt the time well spent. Dresses, a blouse and a dress form were made during the course.

Hall was reported south and west of Cremona last Tuesday evening and again in some places south on Wednesday. A number of farmers suffered 100 per cent losses.

In England good beef sold for a cent a pound in the reign of Queen Elizabeth. Pork sold at the same price; a chicken at 2 cents and a fat goose at 8 cents.

I BOUGHT NO BEEF TODAY

The sun was scorching as the hay was loaded in the field. In the barn the heat was stifling, under the steel roof as the hay was moved away. Sweat soaked the men's clothes and ran off their faces.

A dip at noon, fresh clothes, an afternoon lunch, frequent pinches of salt, and quarts of fresh spring water, made the hateful heat endurable. The horses were unharmed from the last load at seven thirty.

As he sweated and tugged at great bunches of hay the fork had dropped in the mow, the farmer wondered why farmers were called upon to make so great an effort to produce food when other men, who should be helping them, were idling at farmers' expense, or getting twice as much for less important work.

Why should he keep on even for that day? Why not walk out of the mow then and put an end to both the work and the too-heavy physical strain. Had he been a fool to carry on, saving hay and harvesting crops, feeding stock and hauling manure during the war, when he easily could have earned more money for a little work?

The answers to his question must wait. The hay was cut. It was being saved in splendid condition and would make excellent feed for his beef cattle. He was committed to this harvest and to next winter's feeding. Another pinch of salt, a quart of spring water, and he carried on.

At eight o'clock he had a swim. He never ceased to be thankful for the lake. Too tired to dress, he put on a dressing gown over his old-fashioned nightgown, and ate a light supper. In bed at eight-thirty he scanned the front page of the daily paper and read: "The Winnipeg Housewives' Consumers' Association announced today they will sponsor a 'buy no beef' week, protesting increased beef prices."

He was too tired for anger. He was filled with disgust. The stupid, witless women; their husbands even though they were garbage collectors; got twice as much as he did per hour for work much easier than his. Some of them got shorter hours and increases in pay as packing house workers, at his expense. Adding insult to injury, the pathetically ignorant housewives without any knowledge or concern about the wages of the beef producer, would each tell Donald Gordon, "I bought no beef today."

That settled it. "Very well," he said, "I'll raise no beef tomorrow. The silly housewives' leagues are not worth it. I won't bother to tell either them or Donald Gordon. They will find out tomorrow. I'll buy that bunch of dairy heifers. Maybe when they are milking, two years from now, Canada will have sobered up, and beef will be available again on farms, but if it isn't I can coast along here with very little stock, until city slickers are willing to pay me for it." With that comforting reflection he fell sound asleep.—The Scene.

The fire in men's hearts needs to be a fire that both warms and burns.

LOCAL NEWS ITEMS FROM HERE & THERE

Ell Peterson was a Calgary visitor on Monday.

Mr. and Mrs. Paul Brunchak of San Raphael, Calif. were week end guests of Mr. and Mrs. S. Klejko and family.

According to the Alberta Gazette David Nelles McDonald of Didsbury has been appointed an issuer of marriage licenses.

Miss Theima Gilmore returned to her home at Harminaton on Friday after spending part of her holidays visiting with Mr. and Mrs. George Innes.

Mrs. L. Chamberlain of Edmonton is spending a few days visiting at the home of Mr. and Mrs. E.G. Ranton.

The Anglican Service will be held at Rugby next Sunday, September 1st at 11:00 a.m.

Doug Durant left on Monday for his home at the coast after spending the past month working for Tom Morris.

Mrs. F. Platz, Marilyn and Larry left last Thursday to spend a couple of weeks visiting with relatives at Edmonton and Westlock.

Trev Evans of Trochu has accepted a position in the Builders' Hardware Store in Didsbury, having recently been discharged from the Canadian Navy.

Marv Evernden and Miss Erna Fisher have resigned from the staff of the Builders' Hardware and are leaving the end of the month.

Mr. and Mrs. Geo. Wall visited Friday with Mr. Wall's mother, Mrs. Wm. McCulloch Sr., and Mr. McCulloch. Mr. Wall has taken over a grocery store at Hughenden and they plan to take over the business on Sept. 1st. Mrs. Wall is an English bride, just arrived from England, and they spent a few days at Banff before coming to Didsbury.

Mr. and Mrs. P.D. Liesemer of Midway, Ont. who have been visiting with Mr. and Mrs. J.V. Bersch, left on Thursday for a trip to the coast before returning to their home in Eastern Canada.

Mr. and Mrs. W.K. Nelson, former Didsbury residents, have returned from Holy Burn, B.C., and will take up residence in Calgary.

Mr. and Mrs. Joe McDonald moved to Calgary Thursday to see Miss Lorraine McDonald who is a patient in the Keith Sanatorium. We are glad to hear that Lorraine is gradually improving in health.

W. A. Austin, chairman of the Didsbury Children's Rehabilitation Committee, attended a meeting of Alberta chairmen in Calgary last week.

MELVIN NEWS NOTES

A large crowd gathered at the Melvin ball diamond Sunday afternoon to witness the final games of the Rosebud League. Didsbury won the first game 4-1 and Melvin won the next two by scores of 7-2 and 2-0. All three games were exciting and very close. Melvin are now holders of the League cup and can now enter the Provincial playoffs. J. Tuggle pitched the first game for Melvin and Lawrence Krebs the next two.

The Melvin boys are to be congratulated on their loyal work and final success and we would also like to extend a vote of thanks to the many baseball fans who so faithfully supported all the local games during the season.

Mr. and Mrs. H. Thompson and Yvonne of Wash., U.S.A. spent the week end at the Ross Youngs home. Like the rest of us they were rather disgusted with the rain. They left Tuesday for their home on Bainbridge Island.

Mr. and Mrs. Carl Sanderman of Iowa were Sunday dinner guests of Mr. and Mrs. Lester Krebs. Mr. and Mrs. Sanderman are up to see Mr. Sanderman's mother who is very ill at the home of her daughter, Mrs. L. Wollen.

Little Elaine Cowitz had the misfortune to re-break her arm last week. What a siege of it she has had! It hadn't been long out of the cast from the first break. Good luck and a speedy recovery Elaine.

Rainy weather has its many drawbacks, but it does give the ball board an opportunity of doing a few odd jobs at the hall.

Ora May, 2-year-old daughter of Mr. and Mrs. Doug Landeen, was lost for seven hours last week west of Elkton while berry picking with her parents.

Efforts to locate the lost child proved fruitless and the RCMP of Edmonton returned home Monday, after spending the past ten days at the C.G.I.T. Camp at Kasoto Beach, Sylvan Lake.

Mr. and Mrs. Doug Landeen would like to thank all those who assisted in the search for their daughter.

The Misses Laura McCoy, Mona Stevens, Jean Rennie and Anita Andrews returned home Monday, after spending the past ten days at the C.G.I.T. Camp at Kasoto Beach, Sylvan Lake.

EVANGELICAL CHURCH

7:45 p.m.: Evening Worship.
Wednesday, 8 p.m.: Prayer service
"Come and we will do thee good."

NOTES FROM THE EAST

The Hall Board dance held at the Lone Pine Hall was a real success on Friday last. Everyone reported a good time and also very good music.

One more week of holidays then—school again. Oh well, school days are the best days after all. So let's go back with a new interest and best wishes to the teacher, Mrs. B. Atkinson.

Miss Florence Cullen spent a few days last week with Evelyn Dorell. The girls attended the Binder Dance held at Keiver's Lake Hall. It is reported that the crowd was the smallest for some years, due to the postponement of the affair because of rain.

Mrs. Patterson's brother in law has been visiting at her home for the past two weeks.

Mrs. H. Sheils spent Thursday afternoon visiting Mrs. Gordon Rathburn.

Mrs. Bruce Sheils spent a day in Olds last week.

Mrs. R. Sheils has been holidaying in Calgary with her mother, returning Saturday to prepare for teaching again.

Mrs. Elwood Topley is going to teach at the Poplar Creek school this year.

Miss Evelyn Dowell is preparing to take grade IX at Sunnyslope this coming fall.

Bill Persinger spent Sunday with Mr. and Mrs. Ivor Weber and family.

WESTERDALE NOTES

A banquet given to honor the Harman baseball team, winners of the Western Baseball League, was held in the Harman Hall on Saturday evening, with Westerdale players and their wives being invited. Approximately 62 persons enjoyed a bounteous chicken supper, after which several speeches were made. A delightful evening was had by all.

The August meeting of the Westerdale Willing Workers was held on August 13th at the home of Mrs. A. Buckley, with a good attendance of members. This being a guest meeting, a few visitors were present. After a short business session the remainder of the afternoon was spent entertaining the visitors, after which a delightful lunch was served. The next meeting will be held at the home of Mrs. A. Jackson on September 10.

Mrs. Tom Collings and son Jimmy of Acme spent a few days at the home of Mr. and Mrs. Ben Ker-shaw recently. Jimmy was recuperating from a tonsil operation.

Martine Bolton is visiting with her grandparents, Mr. and Mrs. B. Pross of Didsbury.

The mix-up in the world comes from trying to mix right and wrong.

BURNSIDE NEWS NOTES

It was with surprised pleasure that I read in "The Pioneer," the sum total of money raised by the Lions Club of Didsbury in their Jubilee Queen Contest was over \$2,122.33. This must have called for a lot of hard work and whole hearted effort by all concerned and they are to doubt gratified by the results.

Might I suggest another competition on similar lines? Let them sponsor a King, Emperor, Dictator or what have you for a Day, proceeds to go for another community Godsend (for such it would be), to wit: rebuild the roads leading from the east into town, work the Wm. McCoy farm and across the railroad track to the main street, and from the new Municipal Hospital to Law's corner.

This would be a boon to the motor travelling community (and they are numerous) coming from the east. No longer would farmers bringing cars to town see their egg crates tossed in the air and dumped on the floor of their cars or trucks. Or anxious mothers riding with their men folk have their babies snatched from their arms as though by unseen hands and pitched through the windshield, owing to the terrible condition of the roads at these points.

Then too the motoring public would be able to enter the town from the east at the modest speed of about 15 miles per hour without that haunting fear of breaking an axle, car springs or their dog's necks.

The Lions have, as the saying has it, "made history" and again put Didsbury on the map and with this successful project completed even the casual visitor could motor in and look the town over without running the risk of becoming a "casualty" visitor right on the threshold of the main street.

Mr. and Mrs. W.P. Shultz who went to Danville, Penn., U.S.A. are returning (according to word received from them) by having his joined forces with Mr. and Mrs. Ed Liesemer.

Miss Florence Cullen was visiting the district last week. Miss P. Fraser (nee Orpha Dick) of Calgary gave birth to a son at the Calgary General hospital on the evening of the 19th. Unfortunately the baby died two days later. We extend our sympathy to Mrs. Fraser.

Mrs. Lewis McCulloch of Vermilion last week visited with her parents now living in Didsbury and later continued her journey into this neighborhood to visit more of her relatives and friends residing here.

John Koch returned home last Saturday.

Mr. and Mrs. Sam Elliott accompanied by Mr. and Mrs. Gordon Rathburn took a business trip to Red Deer last week.

Mrs. Geo. Herdert of Calgary is visiting her daughter and friends here.

Word has been received that Sarah, the eldest daughter of Mr. and Mrs. A.B. Dyck, old timers of Burnside, is engaged to be married to Mr. Cornelius Rempel of Calgary. The date of the wedding has not yet been definitely fixed.

Little Johnny Stinson of Manyberries is staying with his aunt, Mrs. Bob McCulloch.

Congratulations to Mr. and Mrs. Howard Charlton (nee Ruth Persinger). "It's a son," born in Didsbury Hospital on Sunday, August 25th.

Bill Persinger blew in on the wind on Sunday and today (Monday) is busy swinging a hammer, fixing a garage for Ivor Weber who is getting ready for the harvest.

Mr. and Mrs. Kirkpatrick of Turner Valley paid a surprise visit to the latter's daughter, Mrs. Isabel McCulloch, who is visiting her relatives in the district.

The usual good time was had at the Lone Pine Hall on Friday last.

Mrs. Harry Richardson on Sunday entertained Mrs. Bob and Mrs. Lewis McCulloch.

Ivan Glendenning had the misfortune to have a large hole punched into his gas tank and the thing was filled with gas too.

DIDSBURY HOSPITAL BIRTHS

Born, to Mr. and Mrs. Howard Charlton on Sunday, August 25, a son.

Born, to Mr. and Mrs. Dave Herdert on Monday, August 26, a daughter.

Ed Wynn recalls that one of his first professional appearances was made as a monologist in a small outdoor amusement park. The applause, he says, wasn't terrific, but it was very steady; in fact, he began to hear scattered hand claps almost as soon as he began to act. After the fifth bow, the stage manager hauled him off by the scarf of the neck. "They're not applauding you, you fool," he grumbled. "They're slapping mosquitoes!"

In a sad, hopeless voice the rejected suitor exclaimed: "Well, Susie, I suppose I'll never marry now."

"Oh, you silly boy," replied Susie, not a little flattered by the look of trouble yearning in his eyes, "just because I've turned you down it doesn't follow that other girls will do the same."

"Oh, yes, it does," moaned the

disappointed lover. "If you won't have me, who will?"

It happened one night when the fight wasn't pleasing the fans. The two fighters did nothing but circle each other; not a punch was tossed. A bored silence settled down on the arena.

Then: "Hit him now, ya bum!" a spectator yelled. "You got the wind wit' yah."

REGULATIONS ANNOUNCED FOR MIGRATORY BIRDS

The Honorable J. Allison Glen, Minister of Mines and Resources, Ottawa, has just issued the Regulations regarding Migratory Birds for the current year.

A summary of the Regulations as they apply to Alberta follows: Open Seasons, both dates inclusive: Wilson's Snipe, Throughout the Province from one-half hour before sunrise September 14 to one-half hour after sunrise November 9. Ducks, Geese (other than Ross's Goose), Rails, Coots: In that part of Alberta lying north of the right bank of the Athabasca River going down stream to its intersection with the north boundary of Township 72 and north of the boundary of Township 72 from the Athabasca River to its intersection with the interprovincial boundary between Alberta and Saskatchewan: From one-half hour before sunrise September 7 to one-half hour after sunset November 21.

Throughout the remainder of the Province of Alberta: From one-half hour before sunrise September 14 to one-half hour after sunset November 28.

There is a close season throughout the year on Elder Ducks, Wood Ducks, Swans, Ross's Goose, Cranes, all shore birds except Wilson's Snipe, and all migratory nongame and insectivorous birds.

Migratory game birds killed during the open season may be possessed in Alberta at any time, but the onus of proof that the birds possessed were lawfully killed shall be on the person having the birds in possession.

But Limited: In any day: Ducks, 15, of which not more than 8 shall be species other than Mallards; Geese, 5; Coots and Rails, 25; Wilson's Snipe, 5.

In any open season: Ducks, 150; Geese, 25; Rails and Coots, 100; Wilson's Snipe, 100.

No one shall have in his possession at any time more than six ducks.

The use of an automatic (auto-loading) gun, or swivel or machine gun, or battery, or rifle or shotgun loaded with a single bullet, or any gun larger than number 10 gauge, or any weapon other than a gun or a bow and arrow, and the use of live birds as decoys, or of any aeroplane, power boat, sail-boat, or night-light, and shooting from any motor or wheeled vehicle, or a vehicle to which a draught animal is attached are all forbidden.

The shooting of migratory game birds earlier than one-half hour before sunrise or later than one-half hour after sunset is prohibited. The penalty for violation of the migratory bird laws is a fine of not more than three hundred dollars and not less than ten dollars, or imprisonment for a term not exceeding six months, or both fine and imprisonment.

Confidence, not compromise, is the key to success in a conference.

The trouble with the world today is simply—"millions of me—multiplied."

NEW RENTAL REGULATIONS, SHARED ACCOMMODATION

Effective August 15, landlords of shared accommodation may give a straight six months' notice to vacate terminating at any time the War Prices and Trade Board has announced.

Previously, the six months' notice to vacate this type of accommodation could not be given until September 30 and April 30.

The Board has also announced that a lease for commercial accommodation could not be terminated by the tenant only at a time specified and agreed upon. Previously, the lease could not be terminated by either parties prior to the end of the five year term.

TO ALL VOLUNTARY RED CROSS WORKERS

British and European infants and children up to the age of 14 years, as well as adults, benefited by large shipments of Relief Clothing, Quilts and Hospital Supplies that went forward steadily during the winter months and up until July 1st, the result of the activities of the Canadian Red Cross Women's War Committee under the chairmanship of Mrs. Clara F. McEachern, according to information received by the National office of the Canadian Red Cross.

During June an initial shipment of about 1,000 cases of these supplies were sent direct to Normandy where the Canadian Red Cross Society, in close cooperation with the French Red Cross, has established a warehouse and distributing centre at Bayeux. These were supplemented by shipments from Canadian Red Cross stocks in Great Britain, and in this way Canada has been able to contribute to the normal life in areas laid waste by the advance of our men on their entry into Europe. The Bayeux Centre is in charge of these shipments of the Canadian Red Cross Corps.

To further this work as well as to meet continuing needs in Great Britain, other European countries and China, the programme of the National Women's War Committee for the winter of 1946-47 provides for 35,000 cases for infants, boys and girls up to 14 years of age. In addition to this, a sum of \$25,000.00 has been assigned to purchase certain clothing articles that cannot be made and household utensils which are in great demand.

Mrs. McEachern, speaking of the Committee's proposed programme of work, stated: "In view of the urgency of the need for foodstuffs in Britain and on the Continent and the fact that the women of Canada will rally in the autumn to meet this crucial demand, I am confident that the fine war record of our women will be continued in this urgent postwar endeavor."

THRESHERS CAN HELP SAVE BARLEY CROP

How to prevent threshing damage to crops of malting barley is outlined in a circular distributed last week by the National Barley Contest Committee headed by Prof. T.J. Harrison.

The instructions are of particular interest to competitors in the contest because improper threshing, it points out, may ruin a valuable crop of malting barley.

When threshing is started, the circular stresses, check carefully to see that the kernels are not injured. If there are many peeled, broken, or frayed kernels, immediately adjust the machine. Watch machine adjustments throughout the day's work because character of the barley changes with change in moisture content.

Damage may be caused by one or more of 12 causes which are listed in the circular as follows:

Too high speed of cylinder; irregular speed of tractor engine when combine is driven by power takeoff; excess end play in cylinder; loose or cracked cylinder or concave teeth; Too many concaves; improper sieve adjustment; separator improperly levelled; fan speed adjustment; uneven rate of feeding; combining immature grain; use of lower type of elevator at too high speed or improper clearance.

FOOD MAY BE LEFT IN OPEN CANS

Canadian housewives who empty food from metal containers as soon as it is opened may be surprised to learn that the food is just as wholesome and less liable to contamination if left in the can.

The Canadian Department of Agriculture, in a bulletin entitled, "Canned Fruit and Vegetables for Variety in Every Day Meals" states: "Canned fruits and vegetables may be left in the can after opening."

Stupidity is not the only form of incompetence. Add obstinacy, cupidity, maliciousness and fear.

COMBINING AND SWATHING

(By H.G.L. Strange)

Mr. G. E. Delong, noted Cerealist and Farm Management Authority of the Dominion Experimental Farm, Lacombe, Alberta, tells us that while threshing machines seem to be holding their own, Combines and Swathers can be used in many areas even in the northern country. The Swather, Mr. Delong tells us, can handle a crop which cannot profitably be combined. With swathing the stubble should be left from 8 to 10 inches in height, and large swathers are much better than small swathers. Mr. Delong tells us that a heavier swath is better than a light swath. Swathed farms are practising double swathing, by which the crop is cut by two machines and delivered into one bulky swath, which gives better protection to the grain and is easier to pick up.

This is sample of new ideas and of new devices, that will help to cut down the costs of production, that came out of our war experience. All the more necessary then for farmers, it seems, to receive at this time the largest sum of money they can for their products, so that they will have cash reserves with which to purchase these new and improved machines and devices as soon as they come on the market.

Chemical Weed Control

Within the last few years the most important progress has been made in chemical weed control. Not only have several new chemicals been added to the list of effective herbicides, but remarkable advances have been made in the development of methods for their application. Herbicides for the control of weeds may be grouped into two classes as follows:

Preventive Herbicides. These are used to kill all vegetation and weeds in the soil for at least three weeks. Sodium chlorate, which is commonly applied in the form of "Molasses" is the best known. This type of herbicide is invaluable for use on prairie, farm, and highway, along fence lines and ditches, and for pasture soil before the perennial weeds are established. However, too expensive for use on small farms.

Selective Herbicides. If properly applied these chemicals and certain broad-leaved annual weeds without harming the crops. Dinitro compound and its salts used for this purpose on these crops, but it is not so effective as a preparation of sodium amine, which is effective in killing wild mustard, sinigrum, and certain other annuals.

Post-harvest Herbicides. These are "growth preventing" agents such as 2,4-D. They not only affect the tissues to which they are applied, but are taken up by the root and then translocated to the leaves and other parts of the plant. They are effective against many different kinds of annual and perennial weeds. It is claimed that certain applications do not seriously injure cereals and grasses.

Farmers, grain buyers, and others interested in the use of chemicals for controlling weeds should seek advice through provincial Departments of Agriculture and Dominion Experimental Stations, or from Line Elevator Farm Service. Through "Seedtime and Harvest" we shall attempt to provide our readers with up-to-date information on chemical weed control.

Two Irish farmers, keen rivals, entered their horses in a steeplechase. One of them engaged a crack jockey to ride. The two horses were leading at the last fence, when both jockeys were unseated. The expert jockey quickly remounted and won the race.

On returning to the paddock he found the farmer fuming with rage. "Why, what's up?" he asked. "I won, didn't I?"

"Yes, you won all right," roared the farmer, "but on the wrong horse, you idiot!"

OUR WEEKLY PAPER

When we head this Our Weekly Paper we mean that to be as inclusive pronoun, to be applied by all our readers. We especially want you to feel that you are a part of the paper. We want you to work with us toward the end of making it better so that you can take a pride in it. We think a successful country paper should be primarily a community enterprise. Of course the tangible property of the paper has to be privately owned and operated; but to be effective a paper's subscribers should feel a definite sense of responsibility in the activities of the paper.

Of course we have to make a little money, but the main reason for the publication of this paper is to further the welfare of the people it serves. We can best do this when we have the cooperation of all of you. Of course we have had the cooperation of a good many of you in the past but it is up to all of us to take a greater responsibility to help make our paper better.

So we urge you contribute something to the paper whenever you can. Let us have a letter from time to time, discussing some subject which you think is timely, remember that public opinion is a powerful force. Let's exercise that power through our paper and we will get things done.

Also you can help by sending us news items from your community which would be of general interest to people in the district. Our regular correspondents are doing a fine job and have been sending in splendid news reports each week, and this is appreciated not only by the editor, but also by the people of the whole community.

So let us all cooperate and together we will make The Pioneer an outstanding institution of which all of us can be proud.

REGULATIONS GOVERNING LICENSES OF BUSINESS

The Wartime Prices and Trade Board warns all holders of business licenses that they must report all changes of address and name to the licensing division of the Board.

Regulations of the Prices Board require all manufacturers, persons buying goods for resale, or operating a services business, to hold a license. Once this has been obtained any change in the business address, the business name, or any change or modification of the business must be reported within ten days of that change to the licensing division.

The director of licensing may cancel any person's license who fails to comply with these regulations, or who fails within sixty days of obtaining a license to comply with the regulations of the Board concerning the fixing of the prices or who has not actually started up in the business in the manner specified when obtaining the license.

REPORT PENICILLIN CURE FOR MASTITIS

Penicillin, when supplies are sufficient, is expected to cure mastitis completely in dairy herds in Australia, according to reports from that country's council for scientific and industrial research.

The division has been carrying out work at the Parkville Laboratories, Victoria, and at field stations, with spectacular results. It is reported that the effect of penicillin on "carrier" animals has been outstanding. In one instance, a heifer which had given only a small amount of milk of yellowish color, delivered a normal supply of milk, free of the germ, four days after the drug had been administered.

It has been demonstrated that mastitis germ can be transmitted in an infected shed, on the hands of milkers, and on milking machines.

Sodium hypochloride in suitable concentration readily controls these sources of infection, it has been found. Sometimes, with a few days of invasion, the germ has done sufficient injury to the udder to cause some loss of function, irreparable until the next lactation. Hence the importance of early treatment.

A young man stepped into a clothing store in the days when they sold clothes to ask the price of a suit on display in the window. "You picked the best suit in the place," said the merchant approvingly, "and to show that I like to do business with a man who has such good taste, I am going to make you a special proposition. I wouldn't ask you \$62 for the suit. I wouldn't ask you \$52. I wouldn't ask you \$42. My price for you, my friend, is \$32."

The customer replied, "I wouldn't give you \$32 and I couldn't give you \$22. My offer is \$12."

"Sold," said the merchant. That's the way I like to do business. No chaffing."

When nations fall in love their sons won't have to fall in battle.

PATRONAGE DIVIDENDS to PIONEER CUSTOMERS

Customers who delivered to us in the season 1942-43 will receive cheques for their patronage dividend as soon as possible after the necessary Legislation has been passed by Parliament.

It will not be possible to pay patronage dividends for the years 1943-44 and 1944-45, as the Government has decided that patronage dividends cannot properly be regarded as an expense for these two years in view of rulings handed down in 1943 by the Department of Justice.

Customers who delivered to us in the season 1945-46 will receive cheques for their patronage dividend as soon as the amount can be determined.

It is our intention to pay a patronage dividend on grain delivered to us in the season 1946-47, if our earnings permit.

Keep in touch with our agent who will inform you when these cheques are ready for distribution.

Deliver Your Grain to

PIONEER GRAIN COMPANY LIMITED

THE WHEAT AGREEMENT

(By H. G. L. Strange)

The Government of Canada has signed an agreement with Great Britain by which Canada will supply Britain with slightly less than half of Canada's export wheat at \$1.55 for two years, \$1.25 for the third year and \$1.00 for the fourth year.

This is almost a private agreement between our Cabinet and Britain, because neither Parliament nor our wheat growers were consulted. \$1.55 at the moment is from 50 to 60 cents less than the world price, which Britain is now paying for American wheat. Some people think that because Canada has just loaned Britain a billion and a quarter dollars on very cheap terms, that our debt to Britain was balanced, and that there was therefore no need to give Britain a further subsidy amounting to about 80 million dollars a year for cheap wheat. Be that as it may, however, for my own part, I certainly feel that if the Canadian Government is possessed of a desire to subsidize Britain with such cheap wheat, that at least the additional subsidy should be paid by all the people of Canada, and not paid alone by our wheat growers.

This, it seems to me, is all most unfair to our wheat growers, and so is a matter which should receive the immediate attention of our provincial premiers.

FAMILY ALLOWANCES AVAILABLE FOR BRITONS

After August 6, all parents in Britain, no matter what their income, will be eligible to receive the Family Allowance of a dollar a week for each child, except the eldest, if they have two or more children under 16 years of age. One dollar a week will not make much difference to a well-to-do mother, but to the poorer families it will mean more pairs of shoes, better food and perhaps even some books and toys for the children had to do without before. The Family Allowances, which will be paid entirely by the state, is a bonus to mothers in recognition of their contribution to the nation in rearing children. It is one of several measures that have been planned to provide greater security for the people of Britain.

BRAEMAR GATHERING TO BE HELD AGAIN

After a lapse of seven years, the Braemar Gathering, Scotland's famous Highland Game gathering, will be held again this year on September 5. As in the past the cream of Scotland's athletes will compete and the customary Highland dancing and caber tossing will be the most spectacular events. If the King and Queen are in residence at Balmoral Castle it is expected they will attend.

MINIATURE MOTOR CARS FOR THE DISABLED

A new miniature motor car, specially constructed as a means of locomotion for disabled ex-servicemen and crippled persons, has been shown in London. The car is constructed as a single-seater and its construction enables the controls to be worked in accordance with the driver's disabilities, either by foot or by hand, or by a combination of both. It should have a cruising speed of 35 miles per hour with a gasoline consumption of 85 miles per gallon. The chassis is so narrow that it can enter a narrow gateway 2'6" in breadth and can be garaged in the smallest shed. The selling price of the car is \$792.

Be sure your aim is right before you shoot the works.

The real point of giving something up is to make room for taking something on.

WHAT DOES Your FARM NEED?

New implements, machinery or equipment?
New foundation or breeding livestock?
A farm electric system?
Fences, drainage or other developments?
New farm or home buildings?
Additions or improvements to existing buildings?

FARM IMPROVEMENT
LOANS for the above purposes are available at any branch of The Royal Bank of Canada on attractive terms. Ask at your nearest branch for our explanatory booklet and full particulars.

FARM IMPLEMENT Dealers

It pays to buy for cash. Use a low-cost bank loan to purchase new implements and equipment. Pay cash to earn valuable cash discounts. Strengthen your position with suppliers. Terms of payment arranged to meet your needs. Come in and talk it over.

Plans Have Been Made For Canada's Post-War Army To Ensure Our Future Security

THE following is the text of a speech prepared by a senior western military officer on the post-war Canadian Army. The Government has announced that Canada will maintain her Defence Forces during this period of peace. We felt that most business men have had little time to study the press releases about the plans for Canada's post-war defence forces, and that a short comprehensive talk might help to clarify the situation. With this in mind, we have arranged a series of lectures to businessmen's organizations throughout the prairie command, and this is one of those lectures.

Since I am not qualified to speak about the Navy and Air Force, I am going to tell you about the post-war Army only, with particular reference to the future plans for the unit's in your community.

In order to provide the background for the plans for the post-war army, first, let me tell you something about the army as it was in pre-war days. There are relatively few people in Canada who fully realize the difficult days which our pre-war permanent force and the Non-Permanent Active Militia encountered during the days of peace between the two great wars. Some people in this audience may remember however, the NPAM drilling with wooden guns, and having a squad of four or six men represented on the ground by two men, each holding on to the end of a long rope. Some may remember also NPAM soldiers bringing their uniforms on parade, wrapped in a brown paper parcel, changing into uniform for parade and back into civilian clothes before they went home. It is a shameful thing to say, but in many towns NPAM soldiers were scoffed at and ridiculed by the general public for being in uniform at all, so that they did not wish to be seen in the King's uniform.

In spite of the stumbling blocks placed before these soldiers by an apathetic public, they did carry out a marvellous job. They continued to prepare themselves for the defence of their country, and finally in Sept., 1939, when we found ourselves at war, there was a small nucleus of partially trained men in every community throughout the country. It was around these NPAM nuclei, that the units of our magnificent Canadian Army were built. The spirit and endurance of these men in the NPAM deserve great praise from all Canadians, and we should be thankful that there were some men in Canada who were far-seeing enough to realize that there was a possibility, and that trained troops would be required in the future.

In spite of their magnificent effort, the personnel of the NPAM were at best only partially trained in Sept., 1939. They had been lacking in modern equipment, units were well below war strength in personnel, and the policy financial allotment was not in any way sufficient. Barring the operations at Dieppe in 1942, it was not until July, 1943, that a complete formation of the First Canadian Army went into the field in battle. Three or four years is a long period of time to allow a country to organize and train its fighting formations. It is strange that a progressive country like ours should have allowed itself to sink into such a pacifistic state to be totally unprepared for a major war, as we were.

Enduring Beauty

Have I persuaded you now that we need ground forces in our army even in this atomic age? If I have, the next question for us to discuss is how should our army be composed. Military forces cost money; naturally they cost more in war time than they do in peace time, but in peace time they send in sizeable bills too. It is for taxpayers who must foot the bill for our army. If we cannot immediately justify this expense, we might be more inclined to do so if we considered our defence forces as Canada's National Insurance Policy for our security. The premium for this policy in the shape of a small proportion of our taxes is amazingly low for the coverage which the policy gives us.

Since we are paying for the upkeep of the army, we must insist that it is worth the money that we are putting into it. The army must be efficient in all respects and must be composed of young energetic soldiers who are putting a full effort into the service of their country. The government has issued a statement concerning Canada's post-war army. They have outlined a policy which envisages a relatively small Active Force (composed on a full time basis), and a large Reserve Force of part-time civilian soldiers. There is only one Canadian army with two branches, one the active force and one the reserve force.

Service in the army will be on an entirely voluntary basis. The very highest calibre of young Canadians will be admitted into the army. The Active Force educational requirements for officers has been set at a university degree, and for other ranks it is junior matriculation. The army will be streamlined to take its place in modern times. There is an abundance of first class equipment which has been left over after the last war, and which is still the latest thing. This equipment will be issued to units of both active and re-

in 1939. We were extremely lucky that other parts of the British Empire had some trained troops available, which could provide the defence whilst we were organizing and training in Canada and the United Kingdom. If it had not been for the troops of other countries, perhaps the final outcome of this last war would not have been favourable to the allies. I am not intending to make a war-like speech, nor do I propose to intimate that a World War III is in the offing. It would be ridiculous to make such predictions. I am saying, however, that Canada should be prepared in a military sense for possible emergencies. I suppose that it is possible that in some distant day the world will become so civilized that nations will not have to resort to force to secure peace. That day is not yet at hand, so, in the meantime, it is necessary for us to be ready to act immediately in support of a peaceful settlement, if and when it does become a reality. As a democratic nation, we are infinitely more concerned with the peaceful settlement of disputes than with settlement by force. It is our duty to us to be ready in a military sense to defeat sudden attempts by nations to settle their grievances by aggressive action. To ensure that we are, in fact, prepared in a military sense, we must maintain in Canada a military organization in which all key essential personnel are well trained in the latest military doctrines and weapons and which is capable of expansion at short notice.

If we are not convinced that it is necessary for us to maintain an army during the peace period, the next question for us to decide is whether it is necessary for us to have large numbers of ground forces in our post-war army. Let us examine the problem in detail. It is an old established principle of war that is equally applicable today as it was thousands of years ago, that ground must be actually occupied by ground troops before it can be said to be in the possession of those troops. This is a so-called atomic age, but atom bombs are not necessary for us to only the means toward an end. They are used to soften up defences and disrupt communications and to pave the way for the main force, which is going to occupy the ground. In defence, we might use the example of your local city or town, and say that if an aggressive nation wished to capture that particular city or town, that nation could be subject to a powerful bombardment of high explosive weapons. Our defence force would be scattered, and communications would be disrupted, but the city or town would remain in our possession until we were forced out by ground troops of the aggressor nation.

Have I persuaded you now that we need ground forces in our army even in this atomic age? If I have, the next question for us to discuss is how should our army be composed. Military forces cost money; naturally they cost more in war time than they do in peace time, but in peace time they send in sizeable bills too. It is for taxpayers who must foot the bill for our army. If we cannot immediately justify this expense, we might be more inclined to do so if we considered our defence forces as Canada's National Insurance Policy for our security. The premium for this policy in the shape of a small proportion of our taxes is amazingly low for the coverage which the policy gives us.

Since we are paying for the upkeep of the army, we must insist that it is worth the money that we are putting into it. CRAWL STROKE FROWNED UPON IN SWIMMING — Swimming champions like Marian and Virginia Hopkins, holders of 20 world and national titles, show that beauty and physical fitness go hand-in-hand with the sport of swimming. Beach scenes like this are duplicated throughout the country as Canadians flock to waterfronts to escape the heat, get some valuable tan and generally enjoy the water. The crawl stroke is declared to be an open invitation to sinus trouble, with bacteria driven back into the submerged internal carotid and nose passages.

Lived On Grease

Cat Travelled In Packing Case From England To Africa

This is the story of "Penitence", the cat which travelled to South Africa from England in a packing case and lived, almost literally, for six weeks on the "smell of an oil rag".

A new aircraft engine, swathed in heavily tarred paper and packed in a strong wooden box, arrived at a South African training school from Britain.

When the mechanics opened the packing case they were astonished to find a scraggy black cat with a white chest lying beside the engine. Its only sustenance during the six weeks' voyage had been the grease in the engine and the tarred paper. It became the "cat's" pet.

As before, the Reserve Force will be the predominant portion of the Canadian Army, and should we be forced to again mobilize, we will have to rely on these citizen soldiers all across the country. The Reserve Force will be large—it is intended to recruit 150,000 part-time civilian soldiers in the various units which have been localized in every major centre across Canada.

A word about Prairie Command: Prairie Command is one of the five new commands established across Canada. It comprises Military Districts 10 and 12, that is, Western Ontario, Manitoba and Saskatchewan. The Command headquarters is a small, operational headquarters and is located in Winnipeg. The Military Districts headquarters have their headquarters located in Winnipeg and Regina.

ELECTRICITY PARIS ROAD

PARIS.—Work has begun on electrifying 320 miles of railroad line from Paris to Lyons, at a cost of \$25,200,000.

Saved Son's Life

POLIS NAIL OUT OF BOY'S STOMACH BY ELECTRO MAGNET

AUCKLAND, N.Z.—In a race against time to save his young son's life after swallowing a large nail, J. E. O'Connell, a Royal New Zealand Air Force radio technician, worked two days making an electro magnet small enough to pass down the gullet.

Doctors passed the magnet down the boy's throat and successfully extracted the nail from his stomach.

OLD DUTCH BIBLES

Dusty shelves and cobwebbed attics throughout South Africa are being searched for Old Dutch Bibles. These old books, put away when superseded by the modern Afrikaans Bible, are in demand once again. They are wanted by the churches in Holland, to replace hundreds of thousands destroyed by the Nazis.

The Intriguing Story Of A Fabulously Rich Gold Mine For Which Miners Sought In Vain

(From an article by Senator D. E. Riley Of High River, Alberta, in the Alberta Folklore Quarterly.)

THERE is a fascination in stories of lost mines and lost men. There is the famed McLeod Mine somewhere in the heart of the smoky hills of the Selkirk range, for which men have searched for 40 years only to have it elude them and leave a trail of blood-soaked skeletons behind. And then there is the famed Lost Lemon Mine of Southern Alberta for which prospectors have sought through the years in vain.

In the Spring of 1870 a party of prospectors left Tobacco Plains in Montana to prospect the North Saskatchewan River for gold. Among them were two men known as Black Jack and Lemon. Black Jack had the reputation of being the best prospector in the West since he was the discoverer of the Carleton diggings in British Columbia. These two men were staked by Lafayette French, an old-time Indian trader and a male hunter.

Leaving the Saskatchewan party they decided to travel south with a large half-breed band headed by La Nouse which would afford them protection against hostile Blackfeet. Finally the parties split. The two prospectors following an old Indian ledge-pole trail up High River towards Tobacco Plains while La Nouse headed for Stand Off. As they prospected Black Jack and Lemon found likely showings of gold in the river. Following the mountain stream towards the headwater they discovered rich diggings from grass roots to bedrock. They found two pits and in bringing their cayses in from the picket line they accidentally discovered the ledge from which the gold came.

Traders who saw samples of this rock at Fort Benton described it as resembling a body of solid gold with a little rock shot into it. It was indescribably rich!

In camp that night the two prospectors got into an angry argument as to whether they should stake the find and return in the Spring or camp right there, which almost led to blows. After they had rolled themselves in their blankets, Lemon stealthily crawled out, seized an axe and split open the head of his sleeping partner.

Overwhelmed with panic, when the realization of the enormity of his crime came, he fled into the hills. Lemon was left alone, and he was afraid to leave till daylight. Instead, he built a huge fire and kept it burning all night long, and he and his wife like a couple of wild men.

Little did he think that two snaky black eyes had witnessed the entire tragedy from the cover of the surrounding bush. Two young Stoney braves, William and Daniel Deney, had trailed the pair, had watched them sink the ledge and seen the discovery of the gold.

With the first streak of dawn Lemon mounted his cayuse and hid away the secret of the discovery. Meanwhile the two Stonies ransacked the camp, took the two remaining cayuses and set out for the trail leading to the headwaters of the Highwood river, as a disturbed area which precious metals might be discovered.

Since that day many attempts have been made to locate the mine, but none have been successful. The mountains, the headwaters of the Highwood river, as a disturbed area which precious metals might be discovered.

If one were to believe the stories that have drifted down from the early days, the search for this hidden Eldorado has claimed more than 400 lives. Black Jack's story is the story of a white man's skeleton found in the gap of the Old Man River, the body fingers still clutching a bag of gold. There is the story of two men, both badly wounded, stepping over the edge of the gulch in a ranch in the foothills. The two men died and were fleeing from the West. They rode away next morning for Fort McLeod, but never arrived. Had they rediscovered the lost Lemon Mine only to be followed and killed by Indians?

When Lemon arrived at Tobacco Plains he confessed his crime to the priest, an old friend of his. He had with him the gold they had found on the day of the killing, a few samples of the rock and a few pieces of the ledge. He was in a bad way, but he was not a coward. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor. He was a prospector, and he was a man of honor.

The Intriguing Story Of A Fabulously Rich Gold Mine For Which Miners Sought In Vain

(From an article by Senator D. E. Riley Of High River, Alberta, in the Alberta Folklore Quarterly.)

THERE is a fascination in stories of lost mines and lost men. There is the famed McLeod Mine somewhere in the heart of the smoky hills of the Selkirk range, for which men have searched for 40 years only to have it elude them and leave a trail of blood-soaked skeletons behind. And then there is the famed Lost Lemon Mine of Southern Alberta for which prospectors have sought through the years in vain.

In the Spring of 1870 a party of prospectors left Tobacco Plains in Montana to prospect the North Saskatchewan River for gold. Among them were two men known as Black Jack and Lemon. Black Jack had the reputation of being the best prospector in the West since he was the discoverer of the Carleton diggings in British Columbia. These two men were staked by Lafayette French, an old-time Indian trader and a male hunter.

Leaving the Saskatchewan party they decided to travel south with a large half-breed band headed by La Nouse which would afford them protection against hostile Blackfeet. Finally the parties split. The two prospectors following an old Indian ledge-pole trail up High River towards Tobacco Plains while La Nouse headed for Stand Off. As they prospected Black Jack and Lemon found likely showings of gold in the river. Following the mountain stream towards the headwater they discovered rich diggings from grass roots to bedrock. They found two pits and in bringing their cayses in from the picket line they accidentally discovered the ledge from which the gold came.

Traders who saw samples of this rock at Fort Benton described it as resembling a body of solid gold with a little rock shot into it. It was indescribably rich!

In camp that night the two prospectors got into an angry argument as to whether they should stake the find and return in the Spring or camp right there, which almost led to blows. After they had rolled themselves in their blankets, Lemon stealthily crawled out, seized an axe and split open the head of his sleeping partner.

Overwhelmed with panic, when the realization of the enormity of his crime came, he fled into the hills. Lemon was left alone, and he was afraid to leave till daylight. Instead, he built a huge fire and kept it burning all night long, and he and his wife like a couple of wild men.

Little did he think that two snaky black eyes had witnessed the entire tragedy from the cover of the surrounding bush. Two young Stoney braves, William and Daniel Deney, had trailed the pair, had watched them sink the ledge and seen the discovery of the

Mrs. Lee Sanderman of Calgary visited in Didsbury last Thursday and Friday with her mother.

Mrs. C. McGonagall and Patty left last Wednesday for Vernon B.C., prior to returning to their home in Vancouver. They have been visiting for the past month with Mrs. E. Wiggins and family.

— Get your U.F.A. Binder Twine at the Alberta Wheat Pool Elevator in Didsbury.

Mrs. Chris Flanagan and daughter left Saturday for a few days visit with relatives at Tilley.

There was no show at the Didsbury Opera Theatre last Wednesday owing to the fact that the loud speaker apparatus would not work. On investigation later Dave Walder the manager found that some miscreant had cut the wires leading to the speaker, having entered the theatre building sometime during the day.

LOCAL NEWS

— Doctor Ramsey, Chiropractor, (Palmer Graduate) wishes to extend to you a complete chiropractic service in his Olds office. X-ray service. Specializes in Foot, Stomach, Gaitre and Eye Troubles. Office open on Monday, Tuesday, Friday and Saturday. 9-6t

Bob and Charlie Mortimer and Ed Wiggins returned Friday night from a two-day fishing trip up the Dog Pound and we understand that they had pretty fair luck.

Mr. and Mrs. Elmer Sanderman and family left last Wednesday for their home in Storm Lake, Iowa after visiting with friends and relatives in Didsbury and district.

Mr. E.N. Boettger arrived last Wednesday evening from Vancouver, B.C., and will again make his home in Didsbury after an absence of nine years. He expects Mrs. Boettger to arrive from the coast city in a couple of weeks.

— Mrs. Gulliver wishes to announce that she will resume her piano class in Didsbury this week.

Mrs. Art Reiber returned Thursday evening from the Holy Cross hospital. Her infant daughter will remain in the hospital for a few days.

Mrs. Hislop and Primrose, accompanied by Mrs. E. Pearson left Saturday for Calgary. Mrs. Hislop and daughter are on their way back to California after spending the summer in Didsbury, but will spend a few days in Banff in the company of Mr. and Mrs. M. Hurst before leaving for the States.

In our last issue it was inadvertently stated that "Dad" Gillrie was in the local hospital. We were misinformed, and such is not the case. In fact last week "Dad" who is hale and hearty, was at High River where he had entered his horse in the harness races being conducted in that town on Wednesday.

Harry McCulloch was a business visitor in Calgary Monday.

Mr. and Mrs. Ted Lundell of Creston, B.C. spent the week end in town with Mr. and Mrs. Harold Oke and family, and also renewed acquaintances in the Neapolis district.

— You can still get a new McCormick-Deering Binder to cut this big crop, if you see Harold E. Oke.

J.H. Glockzin has put in two new neon signs, one in each of his display windows, and Didsbury now has one more business place that shows up after darkness falls.
